

MEDIACHROME

MHM

Monitor

With the Mediachrome MHM Monitor your content has no limits. The sleek polished and chrome buffed steel finish, cableless hanging system, an industrial PC with i3 or i5 processor, WI-FI and slim 4 cm depth makes the Mediachrome the ultimate communication tool for indoor shop windows or within any indoor environment. No cables in sight because two tensioners bring low power voltage to the MHM giving it another great advantage allowing you to have double-sided communication: on the back you can use it as a traditional poster frame with a fast and easy replaceable system that can show additional static information.
